Subject: HF-EQ-6081

Dear Sir:

25X1A      Confirming my telephone conversation with you today I am attaching shipping lists signed by Government personnel acknowledging receipt of the material shipped to date on the subject contract. This is in response to [REDACTED] request of last week. These receipts are in three (3) groups:

1. Representing the receipt of major end items
2. Representing the receipt of spare parts
3. Single page representing the list of drawings that were shipped.

Please note on the shipping list relating to end items that the nomenclature AFH-1, AFH-2 refers to the first shipment, the second shipment, etc. respectively. Also there is a letter attached to the group on spare parts which explains an apparent shortage in one of the shipments for spare parts. This correspondence explained the matter sufficiently to the Government people. I trust this is sufficient information to enable you to pay those invoices which you now have but will be happy to furnish anything further you may find necessary.

Yours very truly,

Two handwritten signatures are present below the closing. The first signature is on the left, and the second is on the right.
